

Binary to Decimal Calculator

In this calculator you can find decimal to binary conversion and the opposite.

Description

To present the desirable conversion all you need to do is to type the number you want to calculate and select the type of conversion.

Getting Started

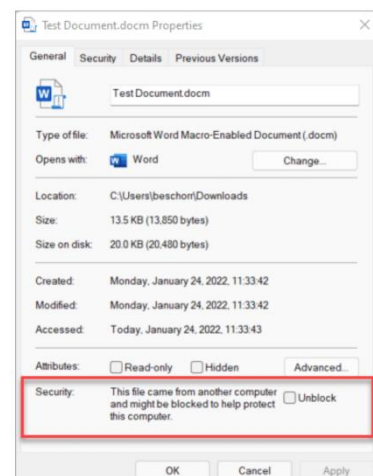

Dependencies

- Windows 10

Installing

Unblock a single file

- In most cases you can unblock macros by modifying the properties of the file as follows:
- Open Windows File Explorer and go to the folder where you saved the file.
- Right-click the file and choose Properties from the context menu.
- At the bottom of the General tab, select the Unblock checkbox and select OK.

Executing program

- Open the attach file -> press developer tab -> visual basic -> user form -> Run Sub/ F5

Help

- Please note, Dose not support fractions and negative numbers (be positive! ☺)

- The calculator support only 19 maximum digits' decimal number input.
